Paris 22-23 October 2014 | ICC's 3rd annual summit on

SUPPLY CHAIN FINANCING

Under the auspices of the ICC Banking Commission

Join us for two days of interactive panel discussions and networking on the forces driving change in trade and supply chain finance. This summit will provide a unique opportunity to learn from experienced corporate executives and senior bankers about their visions and strategies in the area of supply chain finance.

Topics will include:

- Presentation of the first findings from the industry-wide SCF terminology project
- How can SCF work for SME's?
- The rise of factoring and reverse factoring
- Forfaiting: its role and use in the 21st century
- Corporate roundtable on changes to open account financing
- BPO: From conception to adoption

New for 2014:

Business simulation: The cool connection

On 21 October, participants have the chance to participate in the cool connection, a web-based simulation game where participants learn to balance the constraints and manage the interdependencies of the physical and financial supply chain.

Venue

Maison des Arts et Métiers
9 bis avenue d'Iéna, 75116 Paris
