## DISPUTE RESOLUTION IN AERONAUTICS

Under the auspices of the ICC International Court of Arbitration\*

### Dispute Resolution in Aeronautics 4-5 December 2014, Paris

This one day and a half conference offers a window on a wide range of issues crucial to resolving disputes in aeronautics. Experienced arbitrators and representatives of the industry will offer their views on topics of interest to constructors, engineers, operators, lawyers, financiers and insurers.

Due to the complexity of the contractual framework as well as the sensitive issues involved, disputes in the aeronautic sector call for careful treatment. This conference will look at the different actions available to resolve such disputes and the relevant procedural constraints. An entire session will be devoted to analysing the impact of global financial crisis on dispute resolution in the aviation market with a special focus on bankruptcy and supply chain risk management.

### TARGET AUDIENCE
